

# Catfish Construction, LLC

"Construction is our passion,  
safety is our priority"

## Capability Statement

www.catfishconstruction.com

Currently serving all of Florida

### PROFILE AND CORE COMPETENCIES

At Catfish Construction, we can handle any and all of your civil construction needs. Anything from site development to pipe inspection, repair, and to ensure improvement of infrastructure, is our specialty. Efficiency, and affordability even if it requires redesign of any water, sewer, & storm water system, is not too challenging for us. We like to work hand in hand with engineers, cities, counties, and government officials when it comes to conflicts and real life solutions.

We are a complete civil construction package. From demolishing buildings, housing, to hauling off vegetation, we can clear a site, and put it back to just as good or if not better condition. Catfish has recently developed a team who can also perform interior renovations, including but not limited to painting, drywall, tile, and other remodeling needs.
